Oct. 21, 2012

Hey Ted

I worked 3 seasons with Rocco – production designer and 4 seasons with Liesl Set Decorator on Covert Affairs coordinating playback for laptops and computers seen on camera. I am available with manpower and an equipment package to do playback for your show. My new gear works over a wireless network to minimize on set cable clutter.

I also work with a highly skilled graphics person who generates playback animation to cover these requirements.

I would appreciate the opportunity to provide you with a quote for playback requirements.
